Wire Journal International 1987 article index

Companies or individuals may arrange for reprints by contacting Wire Journal at Wire Association headquarters.

Business

"The realities of reform," Robert Feinschreiber, Margaret Kent; March 1987, p. 36.

Case history

"Making welding cable attractive to foreign markets," September 1987, p. 176.

Chemicals and coatings

"What wire and cable manufacturers should know about UL Subject 444," Donald G. Ouellette; May 1987, p. 33.

"Introduction of a new lubricant for copper wiredrawing," Jan Kajuch, Thomas Asbury; May 1987, p. 38.

"A new liquid skin coloring process for primary conductors," A.T. Mattila; June 1987, p. 56.

"Reduced emissions cable jacket," J.J. Pickering, M.E. Lowell; October 1987, jp. 68.

"Recent developments in thermoplastic elastomers for wire and cable applications," L.K. Dijauw, M.O. Westbrook; November 1987, p. 51.

"Screw design improvements for unfilled crosslinked polyethylene," Edward L. Steward; December 1987, p. 51.

Coated ferrous wire

"Factors influencing the fatigue properties of bi-metallic wires," T. Saito, Y. Naganuma; February 1987, p. 54.

Company profile

"A wire revival," Robert F. Dixon; February 1987, p. 40.

"Riding out the storm," Clifford D'Addetta; July 1987, p. 32.

"The Japanese connection," Robert F. Dixon; July 1987, p. 36.

"Keystone on the prowl," Robert F. Dixon; November 1987, p. 28.

"American Steel and Wire celebrates rebirth," Robert F. Dixon; November 1987, p. 60.

Computerization and automation

"Computer intuition," Carol Nashawaty; June 1987, p. 35.

"Cabler, computer team up to build aircraft cables," James Miller, Robert Lounsbury; June 1987, p. 38.

Conventions and exhibitions

"Nearly 3,000 attend Chicago Convention," Robert F. Dixon, Clifford D'Addetta; January 1987, p. 46.

"Interwire 87/57th Annual Convention," Robert F. Dixon, Clifford D'Addetta; September 1987, p. 38.

Copper rod

"Copper rod requirements for magnet wire," Horace Pops; May 1987, p. 59.

Editorial

"Our new look," Robert F. Dixon; January 1987, p. 4.

"People are the catalysts," Robert F. Dixon; February 1987, p. 4.

"Who are you," Robert F. Dixon; March 1987, p. 4.

"Trade issues heat up," Robert F. Dixon; April 1987, p. 4.

"Steel wire segment 'upbeat,'" Robert F. Dixon; May 1987, p. 4.

"A lifetime of service," Clifford D'Addetta; June 1987, p. 4.

"The numbers game," Robert F. Dixon; July 1987, p. 4.

"Stirring up trouble," Clifford D'Addetta; August 1987, p. 4.

"Things are looking up," Robert F. Dixon; September 1987, p. 4.

"Walking a thin line," Clifford D'Addetta; October 1987, p. 4.

"Completing the equation," Robert F. Dixon; November 1987, p. 4.

"Surviving the bloodletting," Robert F. Dixon; December 1987, p. 4.

Electical wire

"Cost savings in computer cable selection," Stephen J. Powell; April 1987, p. 66.

Custom Reprints Available

Wire Journal International offers reprints of any of our articles or ads to meet your company's educational, marketing, or sales needs.

For use as an educational supplement for your clients or as a marketing tool for your sales staff, we will add your logo and additional copy if desired.

Articles can be reprinted in full color, or in black and white, on high-quality paper. (A minimum order for black and white reprints is 100 copies; a minimum order for color is 1000 copies.)

For more information and quotes on prices, please call the Wire Journal International—(203) 453-2777.

WIRE JOURNAL INTERNATIONAL

Exporting

"On fear of exporting," Henry Ferguson; August 1987, p. 32.

"A beginners' guide to exporting" August 1987, p. 36.

Fasteners

"Hydrogen embrittlement: a panel discussion," April 1987, p. 36.

"Mechanical galvanizing: a superior coating for nails," Hal Thrasher; April 1987, p. 59.

Fiber optics

"Optical wavering,"Jack Kessler; January 1987, p. 65.

"Optical fiber manufacturing by the MCVD process," G. Perry, J. Kurki, M.J. Rajala, P.J. Kykkanen, R. Pennanen; June 1987, p. 41.

"Digital hang-held tensiometer: a quality improvement," Michael A. Daily; October 1987, p. 31.

Fine wire

"Artificial nerves designed with ultrafine stranded wire," G.D. Bibel, M. Michael, J. Utter; December 1987, p. 32.

Government regulation

"Wastewater compliance: what's in it for you?" Douglas T. Walker; May 1987, p. 50.

Guest editorials

"WAI, machinery suppliers: forging a partnership," Harry W. Buzzerd, Jr.; July 1987, p. 15.

"Wire industry suppliers plan to be at Interwire: what they expect, what you can expect," Harry W. Buzzerd, Jr.; September 1987, p. 20.

"WAI and WISA: a new project, a new dialog," Harry W. Buzzerd, Jr.; November 1987, p. 19.

Industry news

"New plant competes for high-quality wire market," Ralph P. Edwards; June 1987, p. 33.

"Reports of my death," Staff report; February 1987, p. 49.

"Walter Niehoff speaks out," Robert F. Dixon; December 1987, p. 22.

Machinery

"Double twist compacting of 7-wire strand,", Andy Blackmore; January 1987, p. 34.

"An engineering study of a new one-die wiredrawing machine," A.C. Glover, J.K. Prikryl; July 1987, p. 38.

Management

"Excellence through quality: a total quality improvement approach," Connie E. Carroll; July 1987, p. 50.

"Productivity through material flow management," T. Toni; August 1987, p. 53.

Market analysis

"Copper: an industry in transition," John E. Gross; September 1987, p. 174.

Measuring and testing

"Selection of 3kHz spark testing potentials for insulated wire," Henry Clinton; March 1987, p. 38.

Hudson Automatic introduces a new wire bending machine with a patented CNC control, that proves two heads are better than one!

MONTORFANO VIRE 2 AS + EE

These are the features that put us 'heads' and shoulders above the competition:

1. A seven axis CNC on-board computer with video monitor VDU.
2. A memory that can retain data up to 99 programs for as long as 10 years without battery.
3. Three dimensional bending.
4. Can be made fully automated for unmanned operation.
5. Produces an infinite number of bends with only one or two bending units.
6. Four bending units (more can be added).
7. Patented slide and rotary units.
8. Flexible programming of all functions.

Reader Service No. 44

Plant engineering

"Reconditioned butt welders cut costs for wire fabricators," April 1987, p. 53.

Steel

"Design of high-strength, dual-phase steel,"Jae-Hwan Ahn, Gareth Thomas; January 1987, p. 70.

"Detection of harmful inclusions in steels for tire cord," E. Stampa, M. Cipparrone; March 1987, p. 44.

Steel wire

"Design of a cooling apparatus for a hot dip aluminized steel wire," Y. Mitani, J.A. Romero-Serrano; March 1987, p. 56.

"New developments in the application of Galfan in the steel wire industry," H.P. Ferrett; September 1987, p. 178.

"Corrosion mechanism of brass-coated steel cords for tires," I. Bouche, V. Ferrari, G. Giardetti; September 1987, p. 191.

"Fracture analysis of drawn dual-phase steels," L. Sidjanin, S. Miyasato, G. Thomas; December 1987, p. 41.

Trade

"Levelling the field?" Bruce Smart; February 1987, p. 50.

Wire Association International

"Rod and wire producers to have a marketplace at Interwire 87," Jack B. Salt; January 1987, p. 16.

"Membership cards to be introduced this year," Dave Stecker; February 1987, p. 15.

"Wire Association divisional meetings scheduled for Houston, TX; Manchester, NH," Staff Report; February 1987, p. 16.

"1987 committee rosters,cq.' February 1987, p. 20.

"Technical aspects of the Wire Association," Ralph P. Edwards; March 1987 P. 16.

"Nonferrous, Electrical divisions to meet in Manchester, NH," Staff Report; March 1987, p. 33.

"Ferrous Division offshoot continues to grow," Tony Browne; April 1987, p. 16.

"Using the Wire Association data base," Ralph P. Edwards; May 1987, p. 19.

"Ferrous meeting draws 230 in Houston," Staff Report; June 1987, p. 16.

"Over 300 attend Nonferrous/Electrical Spring Meeting in New Hampshire," Staff Report; July 1987, p. 17.

"Welcome to Interwire," G.R. Munger; September 1987, p. 18.

"A new era of growth," George W. Richards, III; October 1987, p. 14.

"We see the light," Greg Perry; October 1987, p. 15.

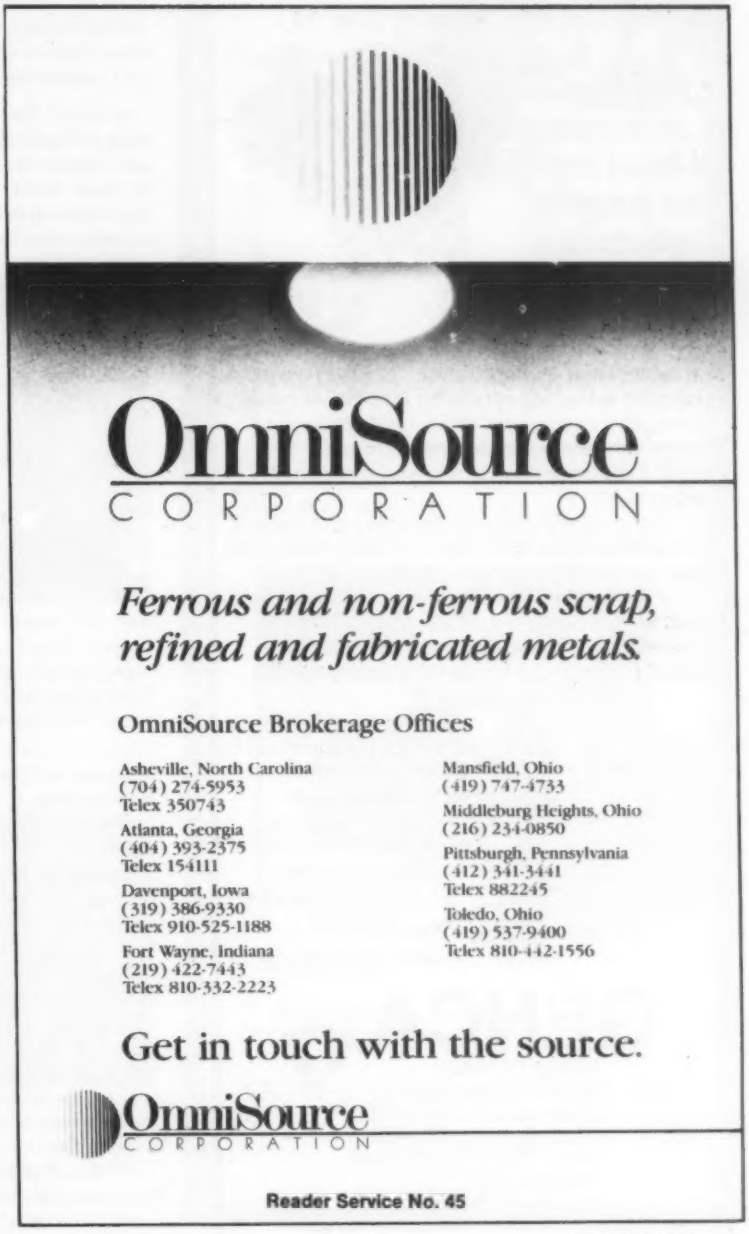
"Communication is the key," J. David Beneke; November 1987, p. 12.

"1988 committee listings," November 1987, p. 34.

Wiredrawing

"Company works to develop die-less drawing process," Robert F. Dixon; October 1987, p. 25.

Wire rod

"High-quality rods for steel wool," H. Kawakami, T. Oshiro, S. Furusawa; August 1987, p. 44.


"Rod quality in perspective," John Nelson, Jr.; October 1987, p. 42.
